IG Asia 2020

Thailand has emerged as a key hub and critical growth area in Asia for major industries such as automotive manufacturing, food and beverage processing, building materials and electrical products. Thailand's manufacturing sector was valued at US\$136 billion in 2018 with an expected incremental growth of US\$50 billion in productivity gains by 2028 according to a recent National Innovation Agency (NIA) report.

Within the wider ASEAN context, the manufacturing sector is valued at US\$670 billion and we are seeing more and more global leading gas manufacturers entering Thailand, as one of Asia's largest markets, to migrate and expand their production. It is a strategic time to be staging the inaugural IG Asia exhibition driving this emerging market demand in the Southeast Asia region.

IG Asia 2020 will be Asia's only dedicated event for the industrial gases' community showcasing cutting-edge technology, supply and services for air-separation, production, storage and distribution, plus a Business-to-Business buyers' forum and co-located conference for industry manufacturers from throughout Asia region.

We warmly welcome you to join us for the 1st IG Asia on May 27-28, 2020 in Makkasan Expo Halls, Bangkok, Thailand.

Exhibit Profile

- Industrial Gases Equipment, System and Technology (inc. ASU, Turbines, Compressors, Blowers)
- Gases Applications (Food & Beverage, Metalworking, Electronics, Automotive, Healthcare)
- Affiliated Equipment and Suppliers
- Gas Analyzers & Instruments and Meters
- Cylinder Testing Equipment
- Medical Gas Equipment
- Latest Energy Saving Gases and Equipment
- Cryogenic Liquid Pumps
- Fluid Separation Equipment and Valves
- Special Pipelines and Materials
- Compressor Power Equipment
- Cryogenic Temperature Heat Exchange Equipment
- Industrial Automation and Security System
- Measurement and Analysis Instrument
- Other Related Equipment
